単位数	4.0	開講年次・ 学期	2
担当教員	ゲン クォッ フン	所属	経済学部
オフィス・場所		連絡先	
講義目的及び到達目標	This course covers core theories and policy implications of macroeconomics. We will focus on the determination of major macroeconomic variables such as output, interest rates, employment and price levels in the short-run, medium-run, and long run. During the course, we also address a number of policy issues and discuss capacity and limitations of macroeconomic policy in stabilizing the business cycle and promoting growth. By the end of the course, students should be able to use macroeconomic tools to analyze macroeconomic phenomena in the real world.		
講義内容・授業計画	Lecture 1. Introduction to Macroeconomics Lecture 2-13: The Economy in the Long Run Lecture 2-3: Stylized Facts of Economic Growth Lecture 4-7: Saving, Capital Accumulation, and Output Lecture 8: Interactive Learning Lecture 9-12: Technological Progress and Economic Growth Lecture 13: Review and Interactive Learning Lecture 14.
